the workforce for a number of years, or students who were economically disadvantaged and/or coming from low-income backgrounds.

For grant cycle FY20 the current coordinator will extend the mission of EMPOWER to the secondary level by visiting with students in high school CTE courses. She will plan to make 3 visits per semester (September, October, November, February, March and April) attempting to build a bridge for female students going into the at traditional CTE programs. Female students at the secondary level, taking CTE courses, will be invited once per semester to take part in an EMPOWER Club Meeting held at the HCC campus, where they will be connected to current females working through CTE programs at the postsecondary level. Additionally, these student will be invited to take part in one special EMPOWER luncheon to be held spring 2020. The EMPOWER Luncheon held May 1, 2019 brought together current female CTE students, HCC College Staff, and employers from the community. During the FY20 cycle, we will look to add high school students to thib nts to th eo

COMMENTS FOR REVIEWER

be synergistic in creating a regional cooperative network of employers willing to support CTE programming within and outside of our schools. We have already held two meetings this past year with opportunities for local and regional stakeholders to voice their suggestions for an effective roll-out of the Academy Model. Initial contact between the faculty and business/industry leadership has provided direction for planning and preparation for next year's class offerings. Financial support is being leveraged from the gracious donations of the Board of Directors of the Ben Owen's Educational Trust. With representation from key business and industry leaders, the Owens Board is poised to assist the adoption of the Academy model and for its successful launch in Fall 2019.

To meet the new requirements for the 4-year State Application and the continued support at the Secondary Level, it is hoped that through cooperative models between the existing Northern Consortia, that we are able to meet the 6 POS goal through the variety of programming offered amongst our individual campuses. New applications for POS are surely likely as a result of this transition, notably with the application for a Performing Arts and Communications pathway for HHS students as a result of this transition. The Owens Board is poised to assist the adoption of the Academy model and for its successful launch in Fall 2019.
